LinkedIn: linkedin.com/in/rakesh-bhardwaj-b18b645b | Portfolio: claude.ai/artifact/9WbCkfWq2Bf2hsodHt5aC5

PROFESSIONAL SUMMARY

Senior Product Designer with 16+ years designing enterprise, government and B2B SaaS products for web and mobile. Designed and redesigned platforms for GSTN (India's Goods and Services Tax Network), HRMS, Tata Motors and Aditya Birla Group, and led end-to-end design of enterprise asset management and field-service products. Strongest at turning complex, rule-heavy workflows (GST compliance, asset lifecycles, field operations) into clear, task-focused interfaces, and at working alongside engineering so they ship as designed. Uses AI tools (Claude, NotebookLM, Kiro, Google Stitch) to speed up research synthesis, exploration, prototyping and design-to-code handoff.

CORE SKILLS

Product & UX: Product Design, UX Strategy, User Research, Usability Testing, Information Architecture, Interaction Design, User Flows & Journey Mapping, Wireframing, Prototyping

UI & Systems: UI Design, Design Systems, Component Libraries, Responsive Design, Mobile App Design, Dashboard & Data-Heavy UI

Delivery: Stakeholder Management, Cross-functional Collaboration, Developer Handoff, Design QA

Front-End: HTML, CSS/SCSS, JavaScript, Bootstrap

TOOLS

Design: Figma, Adobe XD, Photoshop, Illustrator, Balsamiq, Miro

Prototyping (Code-Based & No-Code): Claude, Kiro, Google Stitch, UX Pilot, Uizard, Visily, Leonardo AI

AI Research & Synthesis: NotebookLM, Claude

Development & Collaboration: VS Code, Git, Azure, Notion

PROFESSIONAL EXPERIENCE

Lead Associate II – UI/UX **Jun 2024 – Dec 2025**
Agelix Consulting LLP | Noida, UP

- Owned end-to-end design of Assets Maestro, an enterprise asset lifecycle management platform, from requirements and user flows to high-fidelity UI for asset tracking and reporting workflows.
- Designed the Field Service Executive mobile app for real-time task management by field staff.
- Delivered responsive Figma designs across desktop, tablet and mobile breakpoints, and partnered with product and engineering through build to keep implementation faithful to design.

UI/UX Consultant (Freelance) **Nov 2022 – Jun 2024**
Agentix Solutions | Hyderabad (Remote)

- Led UX strategy and design from concept to delivery across mobile apps, dashboards and websites for healthcare, non-profit and corporate clients.
- ISKCON Gaushala: designed a cattle-management platform (Android app + admin web) covering registration, pedigree and health records, milk and feed tracking and emergency alerts, including an AI/ML muzzle-scan flow that identifies registered cattle or onboards new ones.
- Dermoscopy App: designed a mobile dermatology imaging app.
- Improved usability and visual consistency across the product set; worked with developers for pixel-accurate implementation.

Vaco Binary Semantics (formerly Binary Semantics Ltd.) **Jun 2014 – Oct 2022**
Gurugram, Haryana | 8+ years

UI Expert | *Aug 2017 – Oct 2022*

- Redesigned enterprise platforms, dashboards and mobile apps for government and large-enterprise clients, including GSTN (Goods and Services Tax Network) and HRMS platforms.

- Mapped and simplified user flows to remove usability friction; worked with development teams to preserve design integrity through release.

UI Expert | *Jun 2014 – Aug 2017*

- Designed UI/UX for insurance and enterprise applications for clients including Tata Motors and Aditya Birla Group.

GUI Designer **Dec 2012 – May 2014**

ShepHertz Technologies | Gurugram, Haryana

- Designed developer-facing interfaces for the App42 (backend-as-a-service), AppWarp (real-time multiplayer) and AppHQ cloud platforms; produced wireframes, user flows and interactive prototypes.

Web Designer **Sep 2009 – Dec 2012**

FranConnect (Appnetix Pvt. Ltd.) | Noida, UP

- Designed websites for global brands including UPS, Nestlé and Gold's Gym on a platform serving 75,000+ active users.

SELECTED CASE STUDIES

- Service Maestro: Service Orders & Dispatch – 11-state order lifecycle, 14-tab job record, technician and vehicle scheduler.
- Service Maestro: Asset Records & BOM – Asset history, location tracking, and BOM-to-parts-request flow.
- Assets Maestro – Enterprise asset lifecycle management: tracking and reporting workflows.
- Field Service Executive App – Mobile app for field operations with real-time task management.
- Gaushala App – Herd management with AI muzzle recognition (Android + admin web).
